

Rheumatoid Factor (RF), Recombinant

Catalog number	610189
Description	Recombinant rheumatoid factor (RF) monoclonal IgM expressed in pentameric form. Suitable for use as calibrator or control material, as well as in interference assays for autoimmune diagnostics.
Product host	Chinese hamster ovary (CHO) cell line
Product formulation	Frozen liquid
Product buffer solution	20 mM sodium phosphate, 0.5 M NaCl, pH 7.2, 0.095 % NaN ₃ as a preservative
Recertification	12 months
Storage	Storage at -20 °C
Activity	≥ 4000 IU/ml (Rheumatoid factor immunoturbidimetric assay)
Protein concentration	Lot specific
Purity	SDS-PAGE
Cross-reactivity	Does not cross-react with mouse IgG.
