

Ferritin Antibody

Catalog number	HM302
Specificity	Human ferritin
Description	DEAE purified monoclonal antibody
Product buffer solution	0.015 M potassium phosphate, pH 7.2 ± 0.2, with 0.85% sodium chloride, 0.05% sodium azide as a preservative.
Storage	Short term: 2–8 °C. Long term: –20 °C. Avoid repeated freezing and thawing.
Subclass	Mouse IgG ₁
Product concentration	Lot specific
Purity	≥ 95% by SDS-PAGE and HPLC
Immunogen	Ferritin isolated from human liver
Cross-reactivities	-
Platforms tested	-
Miscellaneous	-
