

Recombinant Influenza B NP, 100 µg

Catalog number	610051
Description	Recombinant influenza B nucleoprotein antigen (B/Beijing/184/93) with a histidine tag. Predicted molecular weight: 63 kDa.
Amino acid sequence	Not Determined (N/D)
Product host	<i>Escherichia coli</i> (<i>E. coli</i>)
Product formulation	Liquid, may contain small particles
Product buffer solution	50 mM Tris-HCl, 250 mM NaCl, 10 % glycerol, pH 8.0
Reconstitution	-
Shelf life and storage	Unspecified, storage at -20 °C
Analyte description	Influenza B is a genus of the Orthomyxoviridae family of viruses. Influenza nucleoprotein (NP) binds to viral RNA, and these ribonucleoprotein complexes play a major role in viral transcription and replication. NP is highly conserved among influenza B virus strains, making NP a very suitable control antigen to be used in influenza B immunological tests.
Product concentration	Lot specific
Purity	Capillary electrophoresis (CE-SDS)

Antibodies tested	Anti-Influenza B 9901: + Anti-Influenza B 9906: + Anti-Influenza B 9909: +
